INJUNCTIONS AND LABOR. Massachusetts May Modify Provisions of Existing Law.

Massachusetts, which generally leads its application less frequent and objectionable in labor disputes, says Joseph R. Buchanan in the New York Journal. The 1907 Massachusetts legislature appointed a joint special recess committee to which were referred practically all of the labor measures, excepting the "overtime" bill, which were introduced during that session.

Probably the most important subjects of legislation considered by the committee have been laws relating to injunctions and to picketing by labor organizations during strikes and lockouts. The interests affected by these two measures are so interwoven as to make it necessary for them to be considered together.

From statements made by members Industry Which Is of Great Importance sometimes work an injustice to labor. Small things are not to be overlooked in considering the problems of the future timber supply. The matchmaker is having as much trouble in getting the seek to prevent a person from entergrade of wood necessary for his husiness ing late or continuing in the employment of any person or corporation."

One of the industries which deals with small things, yet which is one of the utmost importance to the country's commerce, is the manufacture and ex-The trouble with such a law arises when a judge is called upon for an interpretation of what is intimidation. port of spool wood. This business is peculiar to the New England states, and is centered in Maine. Spool factories of this state are now turning out eight hundred million spools aurually, with a market value of nearly \$1,000,000. The best quality of timber is used for the manufacture of spools. White birch, which is used almost exclusively advise a person not to work during the that the actual number of been sollcited.

for this industry, reached the factory in the form of bars from 14 to 2 9-16 inches square and from 24 to 4 feet long. These bars must be absolutely Injunctions embodying these strained definitions of intimidation have in the The birch is cut in winter and eyes of the American workingman the sawed in small portable mills which opeappearance of an effort to deprive him rate near some railroad line, about 2 1-3 of the right of free speech, which he fords being required for 1,000 feet of has been taught is guaranteed to him bars. After sawing, the bars are piled criss-cross, in order to facilitate thorby the constitution of the United States. And the recess committee of rugh seasoning, and protected from the the Massachusetts legislature seems to veather, are allowed to season until

June. The spool bar mills in Maine be also of that belief, turn out about 15 million feet of bars. It is probable that It is probable that the committee during the year and approximately the will propose to the incoming legislature a change in the law that will same amount of material is manufact greatly tend to modify those uses of the injunction which have raised the labor outery against the process. It is their operation. The spools drop from the lathe at the rate of one per second and must be perfectly uniform and were. The finished spools are marketed in this country largely in Right Island, Conbelieved that with one or two exceptions the members of the committee are agreed upon a recommendation which will amend the liny so as to provide that "it shall not be unlawful to Greenock and Glasgow, Scotland, and with, argue with and by arguments to Hull and Fleetwood, England. Ship persuade any other person for the purpersuade any other person for the purpose of inducing such other person to do any act or thing or pursue any line feet having been sent from that port of conduct which is not the commission of an offense under the laws of this commonwealth and against the doing of which or pursuing of which F. H. Martin's cart will have nice by such other person an injunction

In determining market values of shares, the following facts are essen-tial; the market price, the dividends paid, and the margin of safety or our plan, after the nayment of such divi-dends.

A paperweight consisting of a piece dends,
Mathet Latter No. 50 shows parrings, dividends paid and margin of safety on over 100 railroad and industrial shares actively quoted.

This letter will show you why it may be wise for you to sell stocks you now own and re-invest the proceeds in shares yielding larger returns and having a greater margin of anfety.

The letter also mentioned Bay State Gas. of thick glass with a tokay wine label fastened on the back and showing brough is a part of the desk furniture in the Hbrary of a man who goes to Europe nearly every year. "People look at the thing," he said, "and wonder what the wine label is doing there, and when I see the question coming I always tell the story.

"Some years ago I went to Ranb, in Hungary, where I called on an old lady who in Vienna years before had shown much interest in and befriended-a young American student at the university. The poor student had grown to be a rich physician, and he has \$775 left. wanted me to call and present his compliments. When I was about to leave after a pleasant visit the woman handed me a bottle of wine which house. A few days after my return we invited the doctor for dinner, and the bottle was brought in with much ceremony. I made a little presentalabel under the glass." - New York matriage ceremony. Tribune.
